

REMARKS

Claims 46, 48-51, 55, 58, and 61-73 were pending as of the *ex parte Quayle* action of December 1, 2009. Claims 46, 49, 51, and 72-73 are in independent form.

Claims 46, 48-51, 55, 58, and 61-73 have been allowed. Claims 72 and 73 are being amended. No new matter has been added. Reconsideration of the action is respectfully requested in light of the foregoing amendments and the following remarks.

Claims 72 and 73 are being amended for clarity to address the examiner's concern that the claims do not clearly tie the "generating" step to the "identifying" step. Therefore, the applicant respectfully submits that all claims are in condition for allowance.

Conclusion

For the foregoing reasons, the applicant submits that all the claims are in condition for allowance.

By responding in the foregoing remarks only to particular positions taken by the examiner, the applicant does not acquiesce with other positions that have not been explicitly addressed. In addition, the applicant's selecting some particular arguments for the patentability of a claim should not be understood as implying that no other reasons for the patentability of that claim exist. Finally, the applicant's decision to amend or cancel any claim should not be understood as implying that the applicant agrees with any positions taken by the examiner with respect to that claim or other claims.
